

I Have Recently Upgraded my OS to Windows Vista

Keywords / Key Phrases: upgraded os, upgrade os, upgraded operating system

If you have recently upgraded your Windows Operation System to Windows Vista, please download and install the latest driver and applications from our driver "**downloads**" sections from <http://support.creative.com>.

Additional information (improvement or fixes) for the driver and applications are also available. Please click on the **SHOW DETAILS** option to read the information. When installing the driver and application, ensure that you have follow the onscreen instruction from the installation wizard. It is always a good practice to restart your computer system once you have install all the latest update.
