

Solution ID: 87127**PRINT****Stereo Mix - What "U" Hear**

Parole Chiave / Frasi Chiave: creative sound blaster audigy x-fi, what u hear, stereo mix, elenco dei prodotti SoundBlaster che supportano What U Hear

Playback Redirect (funzione Stereo Mix), conosciuto come What-U-Hear, è una funzione di registrazione che consente al computer di registrare quello che si esegue come è.

Questa caratteristica, per esempio, permette al computer di registrare simultaneamente sia segnali line-in che microfono. Tuttavia, What-U-Hear non è in grado di registrare senza una fonte di controllo della riproduzione. La disponibilità di questa funzione varia a seconda del prodotto così come il sistema operativo che lo supporta. Consultare l'elenco qui sotto:

Windows 10
